PROFESSIONAL SUMMARY

Full-Stack Developer with experience building web applications using Angular, TypeScript, Java, Spring Boot, REST APIs, and PostgreSQL. Skilled in backend development, API integration, database design, and secure application development with Spring Data JPA and JWT. Experienced with Git, Docker, Agile development, troubleshooting, and collaborating with teams to deliver reliable solutions. Currently expanding expertise in AI and Agent AI Engineering, including LLMs, and AI-powered applications.

TECHNICAL SKILLS

Languages: Java 8+, TypeScript, SQL, HTML5, CSS3/SCSS

Backend: Spring Boot, Spring Data JPA, Spring Security, Hibernate, REST APIs, JWT, Microservices

Frontend: Angular 13+, React.js, RxJS, Reactive Forms, Bootstrap, Tailwind CSS

Databases: PostgreSQL, MySQL, Schema Design

Cloud & DevOps: Docker, AWS, CI/CD Basics, Git, GitHub

AI & Tools: AI/Agent AI Engineering, LLMs, AI-Assisted Development, Postman, VS Code, Claude Code, Cursor

Core Concepts: OOP, Data Structures & Algorithms, Performance Optimization, Debugging, Agile/Scrum

EXPERIENCE

MyNextHire Pvt Ltd | Software Developer | Pune, India

Feb 2026 – Aug 2026

- Implemented **13+ application enhancements**, including new features, feature modifications, and bug fixes across Angular-based web applications.
- Integrated **RESTful APIs** using Angular **HttpClient**, handling asynchronous data and reactive binding across application views.
- Resolved frontend issues involving component lifecycles, event binding, state rendering, and UI behavior, improving application stability and user experience.
- Managed source code using **Git**, following feature branching, peer code reviews, and merge conflict resolution throughout sprint cycles.

MicroGemini Technologies Pvt Ltd | Web Developer Intern | Remote

Feb 2025 – Aug 2025

- Developed and maintained full-stack modules using **Angular, Java, Spring Boot, and PostgreSQL**, supporting daily workflows for **45+ active users**.
- Implemented **7+ secure RESTful API endpoints** using **Spring Boot** and **Spring Data JPA**, handling transactional CRUD operations and request validation.
- Optimized **Angular services** and **HttpClient** data flows, eliminating redundant API calls and improving frontend rendering performance by **36%**.
- Worked in an **Agile/Git workflow**, participating in code reviews, troubleshooting cross-module integration issues, and resolving **10+ release defects**.

PROJECTS

Vyaro — Direct Farmer–Company Marketplace Platform (Live)

React, Flutter, Spring boot, PostgreSQL, Tailwind CSS, FastAPI

- Built a full-stack marketplace using **React, Spring Boot, and PostgreSQL**, with **10+ RESTful APIs** for users, products, orders, payments, and role-based access.
- Implemented a **payment holding and settlement workflow** with **Razorpay**, releasing customer payments to farmers after delivery and verification, with tax calculation and transaction tracking.
- Designed and managed the **PostgreSQL database** and integrated **Spring Data JPA** for relational data management and transactional operations.
- Integrated a role-based **AI Assistant** using **FastAPI** and **LLM APIs** to provide context-aware assistance across different user roles.

EDUCATION

MCA - Computer Application | SPPU | CGPA: 8.13 / 10

2024 – 2026

BCA - Computer Application | SPPU | CGPA: 9.10 / 10

2021 – 2024
